PZN 09433752

Applications:

Kamilnatrin is intended for the preparation of a liquid for the cleaning of anal fissures and lesions in the external anal regions or at the sphincter, to be applied by immersion baths or showers, also more than once per day.

Preparation:

For seating baths, dissolve two level teaspoons (6g) **Kamilnatrin** in 2 litres water at body temperature.

For rinsing and showers, dissolve one level teaspoon (3g) **Kamilnatrin** in 0.2 litres water at body temperature.

Ingredients:

Sodium Chloride, Sodium Bicarbonate, Chamomilla Recutita Water, Phenoxyethanol, Methylparaben, Ethylparaben, Propylparaben, Butylparaben, Tetrasodium EDTA

Safety assessment:

This substance is in full compliance with the legal requirements of the EU cosmetics ordinance 1223/2009 regarding the permissible ingredients and their maximum concentrations respectively.

Dosage contents:

Dispensing vessel contents: 300g. One vessel contains enough substance for approx. fifty seating baths or 70 to 100 rinsing / showering processes. **Kamilnatrin** is dispensed in pharmaceutical jars made of white PE-HD, with flip top and seal of authenticity.

Warnings:

In case of allergies or intolerances to one of the ingredients the application is not recommended. **Kamilnatrin** is not suitable for oral consumption or application in the region of the eyes. In case of doubt always consult your physician or pharmacist.
